EXAMINER'S AMENDMENT/COMMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

The insertion to page 1, after the title (in the 8-29-2000 preliminary amendment) has been amended to read as follows (in order to include the updated status (i.e. patent number) of the parent application):

-- Cross-Reference to Related Applications

This application is a Division of U.S. Patent Application No. 09/227,942, filed January 11, 1999, now Patent Number 6,541,872, the specification of which is hereby incorporated by reference.--

2. Note: In applicant's summary of the 1-28-04 interview (on page 9 of the 2-17-04 response), it is stated that

"Examiner Knable indicated that amending the previously pending claims to include "wherein the first adhesive layer has a first coefficient of thermal expansion substantially identical to that of the organic support structure" and "wherein the second adhesive layer has a second coefficient of thermal expansion substantially identical to that of the semiconductor die" would be allowable."

To clarify the record, however, the examiner made no comment on whether or not this would be allowable but rather simply "agreed that this would overcome the
